

Horizon
616

As TVs get larger, installing home theater gets more demanding in the design sensitive rooms of a home. Leon's powerful Horizon 616 Living Space Theater system was designed to fill big rooms with full-range sound, but do so in a way that is not disruptive to room décor. With extremely long-throw, high-powered drivers, the Horizon 616-LCR pushes maximum SPLs within a minimum amount of space. Beautifully styled and expertly crafted to exactly match the dimensions and finish of any display – from the largest LCDs to projection screens – it provides the ultimate sound solution for truly integrated home audio and dedicated theater. Paired with dual 10" theater-grade subwoofers and Leon's 1,000 watt Class A/B subwoofer amplifier, this system delivers all the power and fidelity from a refined system, capable of energizing any environment.
