

### Description

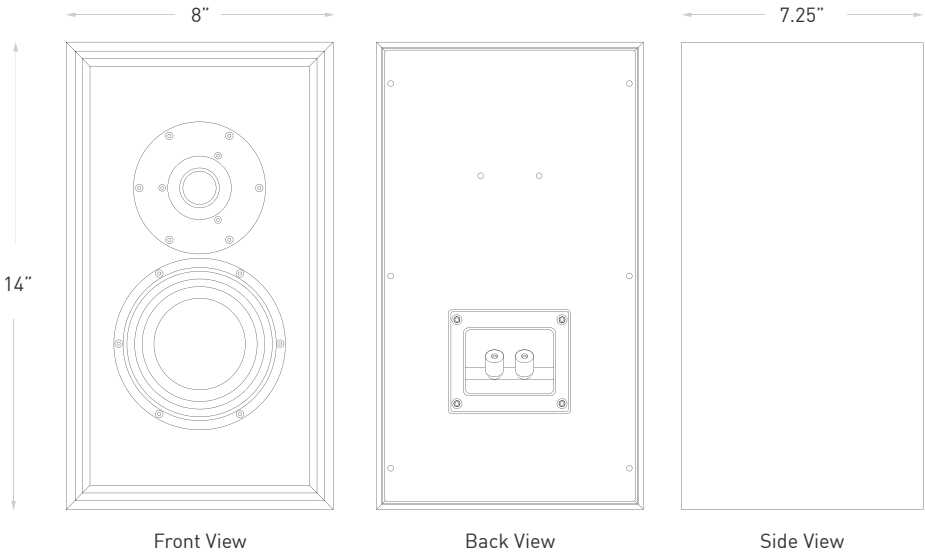

The Timbre Ultima presents an extremely rich, three-dimensional image that features tight, well controlled bass and stunning high frequency detail. Each handcrafted cabinet utilizes reference-grade woofers and tweeters and is meticulously finished by hand. Available in solid hardwoods or finished to match any color, they are perfect for use as front speakers in a small home theater, standalones for music, or as surround speakers in a larger home entertainment center.

### Key Features

- 5" reference-grade woofers and world-class 28mm soft-dome tweeters provide transparent, room-filling sound
- Solid hardwood construction provides rigid acoustic suspension for tight bass and rich tonality
- Available in Light Oak, Walnut, Cherry, Grain Black, Grain White, Matte Black, Matte White, or any custom hardwood or paint color
- Handcrafted in the USA

### Available Finishes
