OTO MCA 200 MODULAR CONTROL AMPLIFIER

Description

Leon's OTO MCA 200 is a compact, American made amplifier designed to exacting standards to deliver power, refinement, and flexibility to our entire range of speakers. And with its ultra-thin form factor, the OTO MCA 200 can be easily mounted behind the TV, or paired with our patent pending Horizon Interactive FIT™ to provide audio with local control in one discreet cabinet.

Key Features

- 100W/channel at 8Ω; 200W per channel at 4Ω
- Bridged power 400W into 8Ω
- Ultra-thin form factor enables easy placement either behind TV, or integrated with our patent pending Horizon Interactive FIT
- Auto on/off and priority switching
- RS232, IR and 12V trigger for home automation
- IR learning enables use of existing TV remote
- Made in the USA

Recommended Pairings: Horizon Interactive FIT™

TECHNICAL SPECIFICATIONS

Power Output	100W/channel at 8Ω; 200W/channel at 4Ω	Preamp Outputs	Mono RCA Subwoofer, Mono RCA Bridged
Speaker Load	Min. 4Ω	Control	12 Volt Trigger, IR (In/Out), RS-232
Digital Inputs	Optical Toslink x 2, Coax S/PDIF 75Ω x 2	Power Consumption	40W typical; 520W peak
Analog Inputs	Stereo RCA x 1	Line Voltage	100-120VAC/200 - 240VAC Switchable
Sensitivity	230mV (RCA)	Height	5"
Channels	2 (via Phoenix™ Connectors)	Width	14.25"
Signal to Noise	>95dB	Depth	1.75"
Freq. Resp.	20Hz-20kHz	Weight	4.5 lbs.
THD	0.09%	What's Included	Remote Control, Power Cord, Optical Cable, Mounting Bracket Kit
Signal Sensing	10mV (RCA)
